pro tempore, meaning that Group coordinator is taking care of this responsibility pending nomination of a permanent Standing Rapporteur

*The Standing Rapporteur should not be automatically appointed rapporteur for GSP legislation and the Monitoring Group should not pre-empt the legislative work of INTA on the GSP regulation. When need be, Afghanistan will be discussed in this Monitoring Group.

**This includes the EU's general investment policy (but neither the work on investment-related legislation, which will be allocated under the legislative file procedures to political groups, nor the work on bilateral investment agreements, which are part of the geographical INTA Monitoring Groups).
